

BIG BEAR AREA REGIONAL WASTEWATER AGENCY

CLASSIFICATIONS
Effective April 28, 2021

Classification/Position	Class/Department
Active	
Non-Regular	Operations
Plant Operator-In-Training	Operations
Plant Operator II	Operations
Senior Laboratory Analyst	Operations
Plant Supervisor	Operations
Operations Administrative/Laboratory Assistant	Operations/Administration
Plant Manager	Operations/Administration
Management Analyst/Board Secretary	Administration
Human Resources Coordinator/Accounting Technician	Administration
Finance Manager	Administration
General Manager	Administration

Governing Board approval date: April 28, 2021

NON-REGULAR

DEFINITION

To assist agency staff in inspection, maintenance, and repair of Agency facilities and/or administrative functions; and to perform related work as required. This is a position requiring no certification or experience. Employee will receive on-the-job training and experience in the administration and/or operation and maintenance of a wastewater treatment plant and related facilities. Assignments may be either full-time or part-time based on the needs of the agency.

DISTINGUISHING CHARACTERISTICS

This position is characterized by having primary responsibility for providing support to the administrative, laboratory, and/or operational staff.

SUPERVISION EXERCISED AND RECEIVED

Receives immediate supervision and direction from assigned supervisor.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Interpret information conveyed orally and in writing; communicate information orally and in writing.

Learn and observe proper safety precautions, rules and regulations.

Routinely operate a calculator, computer, two-way radio, office equipment, tools and machinery.

May operate a motor vehicle while performing assigned duties.

Performs related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Elementary mechanical and electrical principles.

Common hand and power tools.

Basic office procedures, computers, technology.

Safety concepts and procedures.

Ability to:

Solve practical problems.

Add, subtract, multiply, and divide in various units of measure, using whole numbers, common fractions, and decimals.

Understand instructions in oral, written, diagram, or schedule form.

Respond to questions from supervisors, customers and the general public.

Learn and adhere to applicable terms and conditions of employment including safety and health rules and regulations, agency rules and regulations, policies and procedures.

Establish and maintain cooperative working relationships.

Work independently and on project teams.

Communicate effectively both orally and in writing.

Intermittently pull, push, carry or lift material, equipment, or parts weighing up to 25-50 pounds depending on assignment and have sufficient stamina to walk six to eight miles per shift; must be able to stoop, kneel, crouch, crawl, step, or climb; regularly stand, sit, use hands to finger, handle or feel, and arms to reach, and to talk and hear; see with close, distance, and peripheral vision, depth perception and ability to adjust focus.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying.

Education:

High school diploma and or equivalent.

License and/or Certificates

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and ability to meet eligibility standards for motor vehicle insurance coverage established by the agency's insurance carrier.

Special Requirements:

Incumbents must be willing to work shifts, weekends, and holidays, work overtime as needed, work in a variety of weather conditions; be willing to work around wastewater and chemicals used in a wastewater treatment facility; be willing to work in dirty and odorous conditions.

Job Description
Non-Regular

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential duties of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, work at elevations of 6,700+ feet, be regularly exposed to fumes or airborne particles in addition to outside weather conditions involving wind, rain, heat, and humidity, and extreme cold and snow during the winter months, moving mechanical parts, toxic or caustic chemicals, risk of electrical shock and vibrations. The noise level in the work environment is usually moderate and can be severe at times.

**PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED.
IF ASSIGNED TO SAFETY-SENSITIVE JOB DUTIES, A DRUG AND ALCOHOL SCREEN MAY BE
REQUIRED.**

PLANT OPERATOR-IN-TRAINING

DEFINITION

To learn and assist in the operation, inspection, and maintenance of wastewater treatment plant equipment, lift stations, and interceptor systems; to adjust, service, and maintain equipment at Agency facilities; and to perform related work as required.

DISTINGUISHING CHARACTERISTICS

This is the trainee in the Plant Operator series. Positions in this class work under immediate supervision while learning job tasks and have no prior experience in treatment plant operations. Operators-In-Training perform the most routine duties, progressing to more complex duties with training, experience and higher certification. The Plant Operator-In-Training is distinguished from the Plant Operator II by the performance of tasks allowed with possession of an Operator-In-Training certificate.

SUPERVISION EXERCISED AND RECEIVED

Receives immediate supervision and direction from the *Plant Supervisor*; may receive technical supervision from higher certified Plant Operators. 03/25/2020

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Learn to operate and check the operation of equipment such as pumps, valves, belt presses, and processes involved in the treatment of wastewater, digestion of sludge, and disposal of waste products to ensure maximum efficiency of plant equipment and processes.

Learn to operate and perform maintenance and lubrication work on pumps, blowers, motors, and related piping, valves, and equipment.

Inspect plant equipment daily, weekly, monthly and biannually; report any failures or operating difficulties; initiate work orders and any requests for equipment repair; identify, correct and/or report any safety hazards.

Learn to operate, adjust and maintain chemical feed equipment to ensure compliance with established standards.

Learn to troubleshoot electrical system problems and make repairs and/or modifications.

Learn and perform operational functions, including sampling of wastewater, scum, grit, sludge and other materials at established times.

Learn to perform standardized testing and various process changes; learn to monitor flow and pumping frequencies and observe overall treatment processes

Job Description
Plant Operator-In-Training

Learn and perform the operation and maintenance of the power generation equipment.

Learn to clean, lubricate, and perform routine maintenance, including making minor adjustments and servicing mechanical and electrical equipment, such as pumps, electrical motors, automatic switches, valves, scrapers, and filter screens.

Learn to prepare chemical solutions using manual and automated mixing devices, utilizes complex valving schemes and flow patterns specific to a variety of treatment processes; perform basic troubleshooting on systems as necessary.

Transport equipment and materials throughout the plant.

Perform record keeping functions such as logging plant operations, test results, maintenance work performed and unusual operating conditions; prepare and maintain a variety of records.

Ensure that facilities are maintained in a neat, clean, and sanitary condition by cleaning, sweeping, hosing down, and maintaining buildings and grounds, equipment, piping, valves, etc.;

Learn to perform routine maintenance of machinery, structures, equipment, and piping.

Build and maintain positive working relationships with co-workers, other Agency employees, and the public using principles of good customer service.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Basic mechanical principles and practices.

Principles of customer services.

Arithmetic calculations.

Tools and equipment needed to make general repairs.

Ability to:

Learn and apply basic practices and procedures related to the operation and maintenance of a wastewater treatment plant including solids handling.

On a continuous basis, know and understand operations, and observe safety rules. Intermittently analyze problem equipment; identify and locate equipment; interpret work orders; remember equipment location; and explain jobs to others.

Job Description
Plant Operator-In-Training

Understand and carry out written and oral directions.

Learn to accurately read and interpret a variety of meters, gauges, and recording charts.

Learn to observe and accurately record operating conditions.

Learn to recognize unusual, inefficient, or dangerous operating conditions.

Learn and apply mathematical principles.

Learn and apply safe working practices.

Learn to keep and maintain basic written records and reports.

Perform manual labor and operate equipment.

Establish and maintain effective working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Intermittently, pull, push, carry or lift material, equipment or parts weighing up to 50 pounds and sufficient stamina to walk six to eight miles per shift; stoop, kneel, crouch, crawl, step and climb; regularly stand, sit, use hands to finger, handle or feel and arms to reach, and to talk and hear; see under close, distance and peripheral vision, depth perception and ability to adjust focus.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

Equivalent to completion of the twelfth grade.

Experience and Training:

No experience required.

LICENSE AND/OR CERTIFICATES:

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and the ability to meet eligibility standards for motor vehicle insurance coverage established by the Agency's insurance carrier.

Possession of, or ability to obtain, a State of California Wastewater Treatment Plant Operator-In-Training Certificate (OIT) as issued by the State Water Resources Control Board within nine (9) months of date of employment; obtain a Grade I Wastewater Treatment Plant Operator Certificate as issued by the State Water Resources Control Board no later than eighteen (18) months after issuance of OIT Certificate.

SPECIAL REQUIREMENTS:

Incumbents must be willing to work on call emergency response, shifts, weekends, holidays on a regular basis, work overtime as needed, and outdoors in a variety of weather conditions; be willing to work around chemicals used in a wastewater treatment facility; be willing to work in dirty conditions.

Employee is required to be clean shaven to allow wearing respiratory protection equipment, as needed.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, work at elevations of 6,700 + ft, be regularly exposed to fumes or airborne particles in addition to outside weather conditions involving wind, rain, heat and humidity, and extreme cold and snow during the winter months, wet and/or humid conditions, moving mechanical parts, toxic or caustic chemicals, risk of electrical shock, and vibrations. The noise level in the work environment is usually moderate and can be severe at times.

THIS IS A SAFETY-SENSITIVE POSITION REQUIRING A PRE-EMPLOYMENT PHYSICAL EXAMINATION INCLUDING A DRUG and ALCOHOL SCREEN AND BACKGROUND CHECK.

PLANT OPERATOR II

DEFINITION

To operate, inspect, maintain, and troubleshoot wastewater treatment plant equipment, lift stations, and interceptor systems; to adjust, service, and maintain equipment at Agency facilities; and to perform related work as required.

DISTINGUISHING CHARACTERISTICS

The Plant Operator II performs the full range of plant operations and maintenance duties. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.

SUPERVISION EXERCISED AND RECEIVED

Receives general supervision and direction from the Plant Supervisor.

EXAMPLES OF ESSENTIAL DUTIES – *Duties may include, but are not limited to, the following:*

Independently operate and check the operation of equipment such as pumps, valves, belt presses, and processes involved in the treatment of wastewater, digestion of sludge, and disposal of waste products to ensure maximum efficiency of plant equipment and processes.

Operate and perform maintenance and lubrication work on pumps, blowers, motors, and related piping, valves, and equipment.

Inspect plant equipment daily, weekly, monthly and biannually; report any failures or operating difficulties; initiate work orders and any requests for equipment repair; identify, correct and/or report any safety hazards.

Operate, adjust and maintain chemical feed equipment to ensure compliance with established standards.

Troubleshoot electrical system problems and make repairs and/or modifications.

Perform sampling of wastewater, scum, grit, sludge and other materials at established times.

Perform standardized testing and various process changes; monitor flow and pumping frequencies and observe overall treatment processes

Operate and maintain power generation equipment.

Clean, lubricate, and perform routine maintenance, including making minor adjustments and servicing mechanical and electrical equipment, such as pumps, electrical motors, automatic switches, valves, scrapers, and filter screens.

Job Description
Plant Operator II

Prepare chemical solutions using manual and automated mixing devices; utilize complex valving schemes and flow patterns specific to a variety of treatment processes; perform basic troubleshooting on systems as necessary.

Transport equipment and materials throughout the plant.

Perform record keeping functions such as logging plant operations, test results, maintenance work performed and unusual operating conditions; prepare and maintain a variety of records.

Ensure that facilities are maintained in a neat, clean, and sanitary condition by cleaning, sweeping, hosing down, and maintaining buildings and grounds, equipment, piping, valves, etc.

Perform maintenance of machinery, structures, equipment, and piping.

Build and maintain positive working relationships with co-workers, other Agency employees, and the public using principles of good customer service.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Mechanical, electrical and hydraulic principles.

Principles and practices associated with the operation, maintenance and repair of wastewater reclamation plant equipment and facilities.

Tools and equipment needed to make general repairs and adjustments to wastewater plant equipment.

Wastewater standards and regulations.

Proper handling of hazardous materials.

Basic water quality testing procedures.

Basic computer operations.

Principles of customer services.

Arithmetic calculations.

Job Description
Plant Operator II

Ability to:

Independently apply basic practices and procedures related to the operation and maintenance of a wastewater treatment plant including solids handling.

On a continuous basis, know and understand operations, and observe safety rules. Intermittently analyze problem equipment, identify and locate equipment, interpret work orders, remember equipment location, and explain jobs to others.

Understand and carry out written and oral directions.

Accurately read and interpret a variety of meters, gauges, and recording charts.

Observe and accurately record operating conditions.

Recognize unusual, inefficient, or dangerous operating conditions.

Apply mathematical principles.

Apply safe working practices.

Keep and maintain basic written records and reports.

Perform manual labor and operate equipment.

Establish and maintain effective working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Intermittently, pull, push, carry or lift material, equipment or parts weighing up to 50 pounds and sufficient stamina to walk six to eight miles per shift; stoop, kneel, crouch, crawl, step and climb; regularly stand, sit, use hands to finger, handle or feel and arms to reach, and to talk and hear; see under close, distance and peripheral vision, depth perception and ability to adjust focus.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

Equivalent to completion of the twelfth grade.

Experience and Training:

One year of experience as an Operator-In-Training and demonstrated ability to perform the essential duties proficiently.

LICENSE AND/OR CERTIFICATE

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and the ability to meet eligibility standards for motor vehicle insurance coverage established by the Agency's insurance carrier.

Possession of a Grade II State of California Wastewater Treatment Plant Operator Certificate as issued by the State Water Resources Control Board.

SPECIAL REQUIREMENTS

Incumbents must be willing to work on call emergency response, shifts, weekends, holidays on a regular basis, work overtime as needed, and outdoors in a variety of weather conditions; be willing to work around chemicals used in a wastewater treatment facility; be willing to work in dirty conditions.

Employee is required to be clean shaven to allow wearing respiratory protection equipment, as needed.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential duties of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, work at elevations of 6,700+ feet, be regularly exposed to fumes or airborne particles in addition to outside weather conditions involving wind, rain, heat, and humidity, and extreme cold and snow during the winter months, wet and/or humid conditions, moving mechanical parts, toxic or caustic chemicals, risk of electrical shock and vibrations. The noise level in the work environment is usually moderate and can be severe at times.

THIS IS A SAFETY-SENSITIVE POSITION REQUIRING A PRE-EMPLOYMENT PHYSICAL EXAMINATION INCLUDING A DRUG and ALCOHOL SCREEN AND BACKGROUND CHECK.

SENIOR LABORATORY ANALYST

DEFINITION

To perform a variety of standardized chemical, biochemical and bacteriological tests on samples of wastewater and solids; to clean, maintain and calibrate laboratory and equipment; and to maintain laboratory accreditation and track data and complete required reports.

DISTINGUISHING CHARACTERISTICS

The Senior Laboratory Analyst is the most advanced professional level. Positions at this level are distinguished from other classes within the series by the level of responsibility assumed, complexity of duties assigned, independence of action taken, the amount of time spent performing these duties requiring independent judgment and discretion, and the nature of the public contact made. Employees perform the most difficult and responsible types of duties assigned to classes within this series, including maintaining laboratory accreditation. Employees at this level are required to be fully trained in all procedures related to assigned areas of responsibility.

SUPERVISION EXERCISED AND RECEIVED

Receives general supervision and direction from the Plant Manager.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Collect and analyze influent, effluent, cake, mixed liquor, RAS, interchange and grit and screening samples for chemical, bacteriological and biological data related to wastewater treatment plant process/control methods and procedures; conduct analyses to ensure compliance with State and Federal requirements.

Set up, calibrate, and operate a variety of laboratory equipment and instruments; perform minor maintenance of laboratory equipment and instruments; keep laboratory facilities in an orderly condition.

Recognize problems that may occur in an analytical procedure and troubleshoot known procedures or confer with others to identify possible problems affecting results; recommend changes to procedures, as appropriate.

Provide training and guidance to operations staff in basic testing procedures and analyses and the safe and proper methods of working in a laboratory.

Participate in the development, maintenance and updating of standard operating procedures for laboratory analysis and quality assurance/quality control manual; maintain lab certification through ELAP.

Prepare standard chemical solutions, reagents, stains and bacteriological media.

Job Description
Senior Laboratory Analyst

Enter and download laboratory data for further analysis and reporting purposes; maintain laboratory records and prepare required reports and review all reports for accuracy; post analytical results, ensuring all local and state requirements are met for accreditation purposes.

Maintain inventory and reorder chemicals and supplies.

Participate in the preparation and monitoring of the budget for laboratory operations; prepare cost estimates for budget recommendations.

Collect, prepare and ship wastewater and solid samples as required by permit for testing to outside laboratories.

Dispose of e-waste and waste chemical; inventory all chemicals in the plant and update Safety Data Sheets (SDS); update and submit annual Business Plan.

Build and maintain positive working relationships with co-workers, other Agency employees and the public using principles of good customer service.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Sample collection and monitoring procedures.

Modern laboratory procedures and equipment, including computer uses and applications as applied to laboratory operations and analyses.

Pertinent local, State and Federal laws, ordinances and rules.

Principles and practices of chemistry, bacteriology, microbiology and the chemical sciences, including methods and techniques of laboratory and instrument testing.

Testing methods and techniques pertaining to wastewater treatment.

The interpretation and analysis of wastewater test results.

Sample preservation methods related to wastewater discharge and sewage treatment processes.

Use of laboratory equipment, glassware, and instruments.

Conventional QA/QC practices for the wastewater laboratory.

Aseptic technique.

Job Description
Senior Laboratory Analyst

Chemical stoichiometry.

Safe work practices.

Modern office equipment and methods including use of computer applications in word processing, spreadsheet, database, and graphic presentation.

Principles and practices of customer service.

Ability to:

Apply proper laboratory procedures in chemical, biochemical, bacteriological, physical and instrumental analyses of wastewater.

On a continuous basis, know and understand all aspects of the job; intermittently analyze work papers, reports and special projects; identify and interpret technical and numerical information; observe and problem solve operational and technical policy and procedures.

Independently operate laboratory, calibrate and maintain equipment and understand the use of materials.

Analyze testing data and draw sound conclusions.

Maintain the laboratory environment in an organized and otherwise appropriate level.

Maintain accurate records and prepare complete and concise reports.

Communicate clearly and concisely, both orally and in writing including the preparation and delivery of public presentations.

Establish and maintain effective working relationships with those contacted in the course of work.

On a continuous basis, sit at desk for long periods of time; intermittently twist to reach equipment surrounding desk; perform simple grasping and fine manipulation; use telephone, and write or use a keyboard to communicate through written means; and lift or carry weight of 25 pounds or less.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

A Bachelor's degree from an accredited college or university with major coursework in chemistry, bacteriology, biology or a related field.

Job Description
Senior Laboratory Analyst

Experience and Training:

Five years of increasingly responsible experience in the water quality field or in an environment conducting chemical analyses.

License and/or Certificates

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and ability to meet eligibility standards for motor vehicle insurance coverage established by the agency's insurance carrier.

Possession of a Grade II State of California Wastewater Treatment Plant Operator Certificate as issued by the State Water Resources Control Board, or the ability to obtain within two (2) years of appointment.

Possession of a Grade I Environmental Compliance Inspector Certificate and a Grade II Laboratory Analyst Certificate as issued by the California Water Environment Association, or the ability to obtain within two (2) years of appointment.

Possession of a T1 Water Treatment Operator Certificate as issued by the State Water Resources Control Board Drinking Water Operator Certification Program, or the ability to obtain within two (2) years of date of appointment.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, works at elevations of 6,700+ feet, be regularly exposed to fumes and airborne particles in addition to outside weather conditions involving wind, rain, heat, humidity and extreme cold and snow during the winter months. The noise level in the work environment is usually moderate to loud.

PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED

PLANT SUPERVISOR

DEFINITION

To plan, organize, direct and supervise the operations and maintenance of the wastewater treatment plant, interceptor system, disposal site, power generation system, and related facilities for the Big Bear Area Regional Wastewater Agency; to ensure compliance with all regulatory requirements; and to perform a variety of technical tasks relative to assigned area of responsibility, including operations and maintenance duties.

DISTINGUISHING CHARACTERISTICS

The Plant Supervisor performs full supervisory responsibilities including planning, assigning and evaluating the work of subordinates.

SUPERVISION EXERCISED AND RECEIVED

Receives general supervision and direction from the Plant Manager.

Exercises direct supervision over assigned personnel.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Recommend and assist in the implementation of goals and objectives; establish schedules and methods for wastewater treatment operations and maintenance, and implement policies and procedures.

Plan, prioritize, assign, supervise and review the work of staff involved in the operation and maintenance of the wastewater treatment plant and related facilities.

Coordinate daily operations and maintenance activities, including but not limited to emergency response activities and repairs. Supervise use of specialized equipment involved in wastewater treatment plant operations and maintenance.

Evaluate operations and activities of assigned responsibilities; recommend improvements and modifications; prepare various reports on operations and maintenance activities.

Participate in the preparation and monitoring of the budget for assigned wastewater treatment plant operations and maintenance; prepare cost estimates for budget recommendations; submit justifications for various wastewater treatment plant activities and monitor and control related expenditures.

Participate in the selection of staff; provide or coordinate staff training; conduct performance evaluations of assigned staff; work with employees to correct deficiencies; implement discipline procedures as directed.

Job Description Plant Supervisor

Monitor the operating efficiency of the treatment processes via laboratory testing which may include preliminary, oxidation, secondary and tertiary treatments, and solids handling processes to meet established discharge requirements; make or direct plant adjustments.

Maintain accurate operational records and assist in preparation of reports required by regulatory agencies.

Prepare and submit a variety of technical reports related to wastewater treatment plant operations and maintenance; maintain files and records of maintenance activities.

Develop, implement and oversee a comprehensive preventative/predictive maintenance program; assist with resolving the more complex and difficult maintenance activities; schedule preventive maintenance at treatment plant, pumping stations and related facilities.

Gather and prepare cost estimates and scope of work for contractors and vendors for the repair and upgrade of wastewater treatment facilities; serve as contact with contractors and consultants.

Participate in future needs analysis and capital improvement project design, implementation and commissioning.

Implement and enforce Agency safety program ensuring safety procedures are adhered to. Ensure staff is properly trained on safe work practices and plant operations and maintenance procedures.

Perform Underground Service Alert (USA) duties, properly checking, locating and marking collection system.

Serve as backup and perform all duties outlined for a Wastewater Treatment Plant Operator II.

Serve as the designated operator-in-charge (DOIC) in the absence of the Plant Manager.

Assist in investigating complaints and recommend corrective action as necessary to resolve complaints.

Build and maintain positive working relationships with co-workers, other Agency employees, and the public using principles of good customer service.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Principles and practices of wastewater collections, treatment, and disposal.

Treatment plant operations which may include treatment processes such as bio-filtration, activated sludge, chemical, biological and mechanical processes.

Job Description
Plant Supervisor

Safety hazards of volatile solvents, noxious gases and prevention of physical injuries and body infections.

Standard laboratory testing procedures, calculations, and chemicals used in the treatment of wastewater.

Equipment, tools and materials used in wastewater treatment operations and the maintenance of a wastewater treatment plant.

Use of SCADA systems.

Power production and maintenance of associated equipment.

Principles of supervision, training and performance evaluations.

Principles and practices of safety management.

Pertinent local, State and Federal laws, ordinances and rules, including Air Quality standards.

Modern office procedures and computer equipment.

Principles of customer service.

Ability to:

Organize, implement and direct wastewater treatment operations and maintenance activities.

On a continuous basis, know and understand all aspects of the job; intermittently analyze work papers, reports and special projects; identify and interpret technical and numerical information; observe and problem solve operational and technical policy and procedures.

Operate a wastewater treatment facility utilizing such processes as primary, secondary, tertiary, and disinfecting treatment methods.

Diagnose operating problems and take effective course of action.

Effectively make decisions regarding the methods and procedures best suited toward the most efficient operation and maintenance of wastewater facilities.

Resolve difficult maintenance issues.

Interpret and explain pertinent Agency and department policies and procedures.

Develop and recommend policies and procedures related to assigned operations.

Supervise, train and evaluate assigned staff.

Job Description
Plant Supervisor

Establish and maintain effective working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

In an emergency, respond to and deploy personnel and equipment as may be necessary.

Intermittently, pull, push, carry or lift material, equipment or parts weighing up to 50 pounds and sufficient stamina to walk six to eight miles per shift; stoop, kneel, crouch, crawl, step and climb; regularly stand, sit, use hands to finger, handle or feel and arms to reach, and to talk and hear; see under close, distance and peripheral vision, depth perception and ability to adjust focus.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

Equivalent to completion of the twelfth grade.

Experience and Training:

Five years of increasingly responsible experience in wastewater treatment plant operations and maintenance, including one year in a supervisory capacity.

LICENSE AND/OR CERTIFICATE:

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and the ability to meet eligibility standards for motor vehicle insurance coverage established by the Agency's insurance carrier.

Possession of a Grade IV State of California Wastewater Treatment Plant Operator Certificate as issued by the State Water Resources Control Board, or possession of a Grade III with the ability to obtain a Grade IV within 24 months of appointment as Plant Supervisor.

Possession of a Grade II Collection System Maintenance Certificate and a Grade I Plant Maintenance Certificate as issued by the California Water Environment Association, or the ability to obtain within two (2) years of employment.

SPECIAL REQUIREMENTS:

Incumbents must be willing to work on call emergency response, shifts, weekends, holidays on a regular basis, work overtime as needed, and outdoors in a variety of weather conditions; be willing to work around chemicals used in a wastewater treatment facility; be willing to work in dirty conditions.

Job Description
Plant Supervisor

Employee is required to be clean shaven to allow wearing respiratory protection equipment, as needed.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, work at elevations of 6,700+ feet, be regularly exposed to fumes and airborne particles in addition to outside weather conditions involving wind, rain, heat, and humidity, and extreme cold and snow during the winter months, wet and/or humid conditions, moving mechanical parts, toxic or caustic chemicals, risk of electrical shock, and vibrations. The noise level in the work environment is usually moderate and can be severe at times.

THIS IS A SAFETY-SENSITIVE POSITION REQUIRING A PRE-EMPLOYMENT PHYSICAL EXAMINATION INCLUDING A DRUG and ALCOHOL SCREEN AND BACKGROUND CHECK.

OPERATIONS ADMINISTRATIVE/LABORATORY ASSISTANT

DEFINITION

Under general supervision, performs a wide variety of routine and complex office, clerical, administrative operational support duties for management and staff; sorts, logs, and maintains records and other documents; learns policies, procedures, and work methods associated with assigned duties; performs other related duties as required.

DISTINGUISHING CHARACTERISTICS

The Operations Administrative/Laboratory Assistant performs the full range of office and administrative support duties including organization and coordination of workload and preparation of compliance reports, in addition to support operations such as laboratory and safety activities. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit.

SUPERVISION EXERCISED AND RECEIVED

Receives general supervision and direction from the Plant Manager.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Perform a wide variety of complex and responsible operational support duties for Agency management and laboratory staff.

Type and proofread a wide variety of complex and confidential reports, letters, and memoranda; independently prepare correspondence; type from a rough draft or verbal instruction. Compile information to be used in special projects and reports.

Participate and assist in the administration of the Agency's operations and laboratory office.

Maintain calendar of activities, meetings, and various events for operations and laboratory staff; arrange meetings and make appointments; assist with task prioritization; follow up on assigned projects to meet deadlines.

Distribute mail and material to operations staff. Deliver correspondence, receipts, logs, forms, and other material between operations and the administration office. Process mailing and shipping of items for operations and laboratory.

Screen visitors to the plant and coordinate plant tours. Respond to sensitive requests for information and assistance.

Job Description
Operations Administrative/Laboratory Assistant

Assist with laboratory tasks including sampling, routine testing, and the collection and compilation of laboratory data, under the direction of the Laboratory Analyst.

Support the maintenance of Agency regulatory permits, ensuring applications for permits are submitted accurately and timely. Monitor SWRCB and CWEA certifications and renewals for operator and laboratory staff.

Under the direction of management, submit accurate and complete compliance and regulatory reports.

Maintain a wide variety of records, files, and logs related to Agency operations; coordinate with administration on periodic retention and purging of files in compliance with applicable guidelines.

Maintain and upload operational records into Laserfiche, in coordination with the Management Analyst.

Serve as Secretary for the Agency's Safety Committee; prepare agenda packets and record all proceedings; prepare meeting minutes and other documents.

Maintain SDRMA General Safety Specialist certification.

Coordinate and track safety training for Agency employees. Assist with coordination of annual employee testing to include, but not limited to, auditory, respiratory fit tests, etc.

Maintain safety policies and procedures; ensure safety programs and plans are up to date with current rules and regulations; maintain JHA and SOP documents.

Provide information to employees on training opportunities available through CWEA and other resources. Assist operators in researching available training courses and costs.

Record USA daily audits and provide the monthly log to accounting.

Track inventory of Operations safety supplies, breakroom and janitorial supplies, and office supplies. Submit requisitions for purchasing.

Collaborate with Human Resources in planning and organizing employee activities, such as team-building events, annual safety incentive awards, holiday parties, and employee recognition. Assist with organizing BBARWA employee participation in community events, such as Tour de Big Bear, food drives, and holiday family sponsorships.

Establish and maintain effective working relationships with co-workers and those contacted in the course of work.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Advanced English usage, spelling, grammar, and punctuation.

Alphabetic and numeric filing system management.

Business correspondence writing and report preparation.

Pertinent Federal, State, and local laws, codes, and regulations.

Principles and procedures of record keeping.

Robert's Rules of Order.

Safe work practices.

Modern office equipment and methods including use of computer applications in word processing, spreadsheet, database, and graphic presentation.

Principles and practices of customer service.

Ability to:

Perform responsible and difficult administrative support work involving the use of independent judgment and personal initiative.

Perform work in an efficient and timely manner with accuracy and attention to detail.

Intermittently, review documents related to department operations; observe, identify and problem solve office operations and procedures; understand and apply Agency policies and procedures.

Analyze situations carefully and adopt effective courses of action.

Learn to collect samples and run routine laboratory tests.

Maintain confidential data and information for management staff.

Work independently in the absence of supervision. Operate and use modern office equipment including computers and applicable software including spreadsheets and financial systems to organize and analyze data.

Type and transcribe at a speed necessary for successful job performance. Communicate clearly and concisely, both orally and in writing.

Establish and maintain effective working relationships with those contacted in the course of work.

On a continuous basis, sit at desk and/or stand at counter for long periods of time; intermittently twist and reach office equipment; write and use keyboard to communicate through written means; run errands; lift or carry weight of 25 pounds or less.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills, and abilities necessary for an Operations Administrative/Laboratory Assistant would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

Equivalent to completion of the twelfth grade.

Experience and Training:

Four years of administrative and secretarial experience or the performance of related work supplemented by specialized training.

LICENSE AND/OR CERTIFICATE:

Possession of a valid California Class C driver’s license, including possession and maintenance of a satisfactory driving record and ability to meet eligibility standards for motor vehicle insurance coverage established by the agency’s insurance carrier.

Possession of a Grade I Laboratory Analyst Certificate as issued by the California Water Environment Association, or the ability to obtain within two (2) years of appointment.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. While performing the duties of this job, the employee will work at elevations of 6,700+ feet, be regularly exposed to fumes or airborne particles in addition to outside weather conditions involving wind, rain, heat, and humidity, and extreme cold and snow during the winter months. The noise level in the work environment is usually moderate.

PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED

PLANT MANAGER

DEFINITION

To plan, organize, direct and coordinate wastewater treatment plant operations and maintenance activities; to direct and oversee laboratory analysis activities; and to provide highly complex staff assistance to the General Manager.

DISTINGUISHING CHARACTERISTICS

The Plant Manager duties are administrative/managerial and highly complex in nature, involving highly technical functions. The incumbent has broad management authority for the day-to-day maintenance and operations of the Agency's treatment plant and related facilities.

SUPERVISION EXERCISED AND RECEIVED

Receives administrative direction from the General Manager.

Exercises direct supervision over assigned supervisory and technical staff.

EXAMPLES OF ESSENTIAL DUTIES – *Duties may include, but are not limited to, the following:*

Develop, plan and implement goals and objectives; recommend and administer policies and procedures related to the maintenance and operations of the Agency's wastewater treatment plant and related facilities.

Coordinate assigned activities with other managers and with outside agencies and organizations; provide staff assistance to the General Manager and Governing Board; prepare and present staff reports and other necessary correspondence.

Direct, oversee and participate in the development of work plans; assign work activities, projects and programs; monitor work flow; review and evaluate work products, method and procedures.

Provide budgetary estimates for multiple operating and capital items including both monthly and annual amounts; monitor capital assets and schedule maintenance, replacement and disposal; assist in budget implementation and monitoring.

Recommend the appointment of personnel; provide or coordinate staff training; conduct performance evaluations; implement discipline procedures as required; maintain discipline and high standards necessary for the efficient and professional operation of the department.

Direct the operation and maintenance of wastewater treatment plant and related wastewater utility facilities; oversee activities of the environmental laboratory.

Job Description
Plant Manager

Direct and oversee wastewater capital improvement projects as relative to scope, complexity and cost implications, including review of significant issues with developers and private engineers and other consultants.

Solve complex operational and maintenance issues.

Serve as Chief Plant Operator for the Agency.

Represent the Agency to outside agencies and organizations; participate in outside community and professional groups and committees; provide technical assistance, as necessary.

Prepare and present oral and written reports to the General Manager and Governing Board, committees, policy makers at other agencies, individuals and groups.

Research and prepare technical, administrative and regulatory reports and studies; prepare written correspondence.

Respond to and resolve difficult and sensitive inquiries and complaints.

Build and maintain positive working relationships with co-workers, Board of Directors, other Agency employees and the public using principles of good customer service.

PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED

MANAGEMENT ANALYST/BOARD SECRETARY

DEFINITION

To perform a variety of professional analytical work in support of administrative and program activities of the Agency including the overall day-to-day management, organization and coordination of administrative functions; to provide administrative and analytical support to management staff; to support grant writing and public outreach and education efforts and legislative monitoring and regulatory compliance; and to serve as Secretary to the Governing Board as appointed.

DISTINGUISHING CHARACTERISTICS

The Management Analyst/Board Secretary performs the full range of professional analytical duties in the development and implementation of Agency policies, procedures, and programs; administrative support through research, analysis, report writing, recommendations, correspondence, and other administrative support duties as needed; preparation of Governing Board agendas and minutes; records management; publication of legal notices; and other related work, as required. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit.

SUPERVISION EXERCISED AND RECEIVED

Receives general supervision and direction from the General Manager.

Exercises supervision of assigned staff.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Manage day-to-day administrative support functions, including office organization and procedures, recordkeeping and files, meeting and event planning.

Screen calls and visitors; provide general assistance to the public by personally or directing information requests according to established procedures.

Compose emails, general correspondence, memos, charts, business plans.

Collect and distribute mail; process outgoing mail.

Perform finance functions necessary to achieve financial internal controls, under the direction of the Finance Manager including, but not limited to, collecting receipts (through mail and over-the-counter) and posting to monthly log; maintaining, distributing, monitoring and replenishing petty cash; reconciling bank accounts monthly.

Process sewer permit applications and Board Room rental applications; collect fees.

Coordinate setup and takedown of the board room for meetings and events.

Job Description
Management Analyst/Board Secretary

Manage office technology systems and procedures; coordinate technology system services, including website, phones, security/surveillance, and office equipment; coordinate with outside consultants and vendors to ensure the Agency's technology needs are met.

Oversee design and content management of the Agency's website; approve and update modifications to entire site ensuring the content remains up to date.

Prepare and distribute Governing Board agenda packets; write staff reports, ordinances, and resolutions; review and edit staff reports, ordinances, and resolutions prepared by others; coordinate the approval of agendas with management staff; upload final agenda packet to the Agency's website. Proofread copy for spelling, grammar, and layout, making appropriate changes. Responsible for accuracy and clarity of final copy.

Attend regular and special Governing Board and Agency meetings, take and prepare meeting minutes and conduct other follow-up actions as necessary such as, composing and preparing correspondence advising the public and staff of Governing Board actions.

Ensure compliance with legal requirements governing public notice of meetings, public hearing documents, and the conduct of closed sessions; update and maintain mailing lists – these duties include posting materials to the Agency website, electronic distribution, publication in the local newspaper and posting hard-copy documents.

Assist Governing Board members, under direction from the General Manager, in obtaining all relevant information needed by Governing Board members to carry out their assigned duties efficiently and effectively.

Work closely with legal counsel to ensure all Governing Board communications, ordinances, resolutions, meetings, and other activities are in compliance with applicable state and local laws.

Attest to and countersign minutes, resolutions, ordinances, and other documents as Secretary to the Governing Board.

File Statement of Economic Interest – Form 700 for appointed Agency Officials and designated employees. File reports and forms as required by the Political Reform Act, Fair Political Practices Commission (FPPC), and Conflict of Interest Code.

Submit documents for filing or recording with the proper agencies.

Maintain accurate and complete records; develop and establish office filing and index systems; oversee the organization and maintenance of administrative documents including but not limited to policies, procedures, rates, rules, regulations, forms, notices, webpage content.

Maintain the Agency's Code Book and Governing Board Handbook.

Job Description
Management Analyst/Board Secretary

Manage the Agency's record archiving, retention and destruction program, ensuring all Agency documents are maintained per the Agency's adopted Records Retention Schedule.

Conduct or direct complex studies, research, analysis, and projects; prepare and present detailed and comprehensive reports to a variety of audiences.

Participate in data collection for studies, reports, and surveys that relate to the annual audit, budget process, salaries and benefits, and confidential matters.

Research grant opportunities and assist with the preparation of grant applications for various programs.

Maintain awareness of new trends and developments in the fields related to the Agency including records management, Fair Political Practices Commission regulations, and changing legislation; initiate and recommend new programs consistent with changing developments and ensure timely compliance with regulatory matters and reporting requirements.

Write letters in support or opposition of various legislative issues as directed; prepare letters on behalf of the Agency.

Participate in the development and implementation of Agency strategic and master plans.

Prepare bid specifications and scope of work for projects and programs; assist with the selection and management of consultants and contractors; efficiently and effectively manage assigned projects.

Evaluate operations and activities of assigned responsibilities; recommend improvements and modifications; prepare various reports on operations and activities.

Supervise, train, motivate, and evaluate assigned personnel; make effective recommendations regarding promotion, transfer, and disciplinary action of assigned personnel.

Perform other duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

Principles and practices of office organization, supervision and management.

Principles and techniques of project management.

Grant writing and application procedures.

General information technology systems.

State and Federal legislative and regulatory process.

Job Description

Principles and procedures of record keeping.

Roberts Rules of Order, Brown Act, Fair Political Practices Commission, and Conflict of Interest, Government Code, and other Special District law.

Report preparation and written communication using proper English, spelling and grammar.

Modern office equipment and methods including use of computer applications in word processing, spreadsheet, database, and graphic presentation.

Safe work practices.

Principles and practices of customer service.

Ability to:

Independently perform professional analytical work in support of assigned programs; prepare clear and concise technical and administrative reports.

Interpret and apply rules, regulations, laws, ordinances, and the Agency policies and procedures.

Organize and maintain recordkeeping and retrieval functions.

On a continuous basis, know and understand all aspects of the job. Intermittently analyze work papers, reports, and special projects.

Review and analyze organizational and administrative issues; recommend and implement effective courses of action.

Evaluate and interpret a variety of statistical and narrative information and data and make sound recommendations.

Coordinate and prioritize multiple tasks and projects effectively and efficiently and meet multiple deadlines.

Communicate clearly and concisely, both orally and in writing including the preparation and delivery of public presentations.

Maintain confidentiality of information.

Establish and maintain effective working relationships with those contacted in the course of work.

On a continuous basis, sit at desk for long periods of time. Intermittently twist to reach equipment surrounding desk; perform simple grasping and fine manipulation; use telephone and write or use a keyboard to communicate through written means; and lift or carry weight of 25 pounds or less.

EDUCATION, EXPERIENCE AND TRAINING

Any combination of education, experience and training that would provide the required knowledge, skills and abilities would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Education:

A Bachelor's degree from an accredited college or university with major coursework in public or business administration, finance, economics, or a related field.

Experience and Training:

Four years of increasingly responsible administrative and analytical experience involving financial, budgetary, or administrative issues, preferably within a local government environment. Experience in project management, contract administration, policy development, and technology management is highly desirable.

LICENSE AND/OR CERTIFICATE

Possession of a valid California Class C driver's license, including possession and maintenance of a satisfactory driving record and ability to meet eligibility standards for motor vehicle insurance coverage established by the agency's insurance carrier.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job, the employee will work near wastewater treatment facilities, works at elevations of 6,700+ feet, may be exposed to fumes and airborne particles in addition to outside weather conditions involving wind, rain, heat, and extreme cold and snow during the winter months. The noise level in the work environment is usually moderate.

PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED

HUMAN RESOURCES COORDINATOR/ACCOUNTING TECHNICIAN

DEFINITION

To perform a variety of professional analytical work in support of human resources programs including benefit administration, recruitment and selection, staff development and training, safety and worker's compensation; to perform technical accounting duties including the processing of Agency payroll and accounts payable; and to serve as the point of contact for personnel-related questions.

DISTINGUISHING CHARACTERISTICS

The Human Resources Coordinator/Accounting Technician performs the full range of professional analytical duties. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.

SUPERVISION EXERCISED AND RECEIVED

PRE-EMPLOYMENT PHYSICAL EXAMINATION AND BACKGROUND CHECKS ARE REQUIRED

GENERAL MANAGER

SUMMARY

Under contract and general direction of the Governing Board, the General Manager is the Chief Executive Officer of the Agency and is charged with administering and supervising the delivery of safe and efficient services of the Big Bear Area Regional Wastewater Agency. This is an at-will, exempt salaried position.

DISTINGUISHING CHARACTERISTICS

Positions in this class are characterized by their ability to exercise independent judgment, decision, and initiative in planning, supervision and coordination.

ESSENTIAL DUTIES AND RESPONSIBILITIES

Direct, manage, and assume responsibilities for the overall supervision and management of administrative and operational functions of the agency and all related components. Monitor and evaluate the efficiency and effectiveness of all facilities in partnership with employees; develop and implement policies and procedures; evaluate and review recommendations and actions of employees and resolve problems. Provide for the selection, training, development, evaluation and discipline of employees.

Prepare public presentations, Governing Board agendas, staff reports and provide leadership for Governing Board meetings by providing sound advice. Direct the preparation of a variety of written correspondence, reports, procedures, monitoring reports and other written materials. Monitor changes in laws, regulations, and technology that may affect operations; implement policy and procedural changes as required.

Responsible for coordinating new or expanded community sanitation facilities. Interface with the member agencies, regulators, legal counsel, engineers, other public agencies, consultants and contractors. Oversee the preparation of plans, specifications, construction projects, maintenance efforts and operational contracts. Develop long-range plans; project future demands on the facilities and funding opportunities. Manage and oversee the development of the Agency budget, anticipating staffing, equipment, material and supply needs.

Respond to and resolve difficult and sensitive inquiries from the public. Represent the Agency at meetings, organizations, service clubs, community organizations and other public agencies. Speak on behalf of the Agency at meetings. Responsible for public and media relations, responding to questions and complaints regarding the agency's facilities, operation, programs and services; represent the agency on advisory committees and at other municipal and community meetings. Perform other duties as may be assigned.

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform essential duties satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential job duties. The requirements listed below are representative of knowledge, skills, and/or abilities required.

KNOWLEDGE, SKILLS AND ABILITIES

Must possess knowledge of principles, practices and techniques of public works, water and/or wastewater operations, contracting and inspection of construction projects. Must possess proficient written and verbal communication skills. Must possess public relations skills to effectively represent the Agency. Must have the skills and ability to plan, organize, direct and coordinate Agency activities, evaluate and supervise staff, exercise sound judgment, be well-organized, work well under pressure and be able to make decisions. Must have the ability to establish and maintain effective working relationships with others; work independently and on project teams. The General Manager must be able to work extended and irregular hours, weekends, and holidays.

EDUCATION AND EXPERIENCE

A Bachelor's degree from an accredited four-year college or university with major coursework in engineering, water or wastewater, management, or public administration; five or more years of increasingly responsible experience managing or supervising public works operations or a complex water or wastewater treatment operation.

LICENSES AND CERTIFICATES

Possess a valid California Class C driver's license, possess and maintain satisfactory driving record and the ability to meet eligibility standards for motor vehicle insurance coverage established by the Agency's insurance carrier.

Possession of a California State Water Resources Control Board Grade III Wastewater Treatment Plant Operator Certificate is desired, with the ability to obtain a Grade IV Certificate within five years of employment.

LANGUAGE SKILLS

Ability to read, analyze, and interpret general business periodicals, professional journals, technical procedures, or government regulations, financial reports, and legal documents. Ability to write reports, business correspondence, and procedures. Ability to effectively present information and respond to questions from the Governing Board, member agencies, employees, and the public.

MATHEMATICAL SKILLS

Ability to add, subtract, multiply, and divide in various units of measure, using whole numbers, common fractions, and decimals. Ability to compute rate, ratio, and percent and to draw and interpret graphs. Ability to apply advanced mathematical concepts as necessary in the performance of the job duties.

REASONING ABILITY

Ability to solve practical problems and deal with a variety of variables in situations where only limited standardization exists. Ability to interpret a variety of instructions furnished in written, oral, diagram, or schedule form. Learn and adhere to applicable terms and conditions of employment including safety and health rules, regulations, policies and procedures.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential duties of this job. Employee must be able to perform the critical and important job duties, including sufficient strength to pull, push, carry or lift material, equipment or parts weighing up to 25 pounds and sufficient stamina to walk three to five miles; must be able to stoop, kneel, crouch, crawl, step, or climb. Employee is regularly required to stand, sit, use hands to handle, finger or feel, arms to reach, and talk and hear. Specific vision abilities required by this job include close, distance and peripheral vision, depth perception and ability to adjust focus.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. While performing the duties of this job, the employee will work within or near wastewater and wastewater treatment facilities, work around chemicals, work in dirty and odorous conditions, be regularly exposed to fumes and airborne particles, work at elevations of 6,700+ feet and in outside weather conditions involving wind, rain, heat, and extreme cold and snow during the winter months. The noise level in the work environment is usually low to moderate.
